

AP60
DRIVER SIDE BUCK STATION LOCATIONS

AP60
DRIVER SIDE (ORIGINAL PART)
(arch1.jpeg)

Blank1
(Refer to RDMP43)

Notes:

1. Drawings RDMP40 - RDMP44 provide the details for the buck stations and other details for AP60 (DRIVER SIDE rear wheel inner cockpit panel.) A mirror image of this buck is required for the PASSENGER SIDE panel.
2. All buck stations are constructed from 3/8" plywood and mounted on a 3/8" plywood base.
3. Refer to Drawing RDMP44 for buck assembly details.

Red markings indicate approximate location of weld lines on original part. Original part fabricated from 4 separate panels. (Typical)

Red markings indicate approximate location of weld lines on original part. Original part fabricated from 4 separate panels. (Typical)
